About

Front End Developer, with 2 years of professional experience.

Looking for positions as a Front End Developer or Full Stack Developer.

Consider myself an effective communicator, flexible and highly motivated, capable of achieving established goals by applying my skills to contribute to innovative and efficient solutions.

Proficient in creating quality products, easy to use, scalable and always focusing on the user experience, using technologies such as React, Next, Node, AWS, JavaScript, TypeScript, HTML, CSS and Git/GitHub.

Work History

Full Stack Developer

Self-employed09/2023 - Currently

Built, implemented, and maintained more than 10 proprietary applications as a Freelancer, using innovative technologies resulting in a significant increase in customer satisfaction.

Produced the prototyping, client-side and server-side coding, testing, documentation, implementation, up to the presentation to the final customer.

Efficiently and securely integrated Back End API with the Front End, ensuring fluid communication by 70% between the application layers.

Implemented applications in real-time production using strong market languages, always up-to-date and in international standards, working with agile methodologies, optimizing the construction time of the applications by 30%.

Front End Developer

CompassUOL11/2022 - 09/2023

Took care of the construction, implementation, and maintenance of the client's app and Design System, resulting in a notable improvement in user experience and brand consistency.

Ensured that the app was covered by unit tests using JEST, which increased the code reliability by more than 30%.

Developed and maintained web systems, enhancing the interface of more than 40% of the Design System components, resulting in a more intuitive and attractive user experience.

Used agile methodologies like Scrum and Kanban, actively participating in more than 10 meetings per week.

Maintained clean code and a solid architecture, contributing to a significant reduction of 20% in errors and a 30% improvement in code maintainability.

Education

Technologist in Information Security

FATEC Ourinhos02/2021 - 12/2023

Technician in Computer Science for the Internet

ETEC Jácinto Ferreira de Sá02/2018 - 12/2020

Hard skills
